Intro

(Hunchback) Doctor! You can't control this monster it's too late! It will kill and feed until it dies! We must get rid of it now! /

Verse 1

I wake up in the morning last night was a blur / can't quite piece the puzzle something just occurred / got blood in my hands so I scruffed it up with dirt / didn't have jeans and didn't have a shirt / butt naked laid out outside / tryna find a place where I can go and hide / all you see is tears coming down from the sky / and I smell a stench somewhere like someone died / the door was locked in the front I squeezed into the side / saw a man with a fucking needle getting high / I walked right to him / and then I got close / asked the man nicely to give me all his clothes / he smiled I think he took it as a joke I suppose / then I strangled his ass with his fucking coat / then I grabbed his needle and shoved it in his throat / and I watched him bleed 'til can't bleed any mo' / I was feeling ruthless 'cause I had no remorse / now what the fuck am I gonna do with his corpse / he's dead in the dark and I would be the cause / the night is looking young I wonder what I got in store /

Chorus

Sometimes I don't know what the fuck I'm doin' / and when I do it fuck it then I keep it movin' / and when I can not stand the bullshit / something gets into me and then I get impulsive / anything comes into my way you gonna see me conquer / come and dance with the wolves and show me you a dancer / when the time ticks now we all know it's the time for / one little question can you ever love this monster /

Verse 2

Now I'm walking in a silent street / so quiet I hear the sounds of my feet / looking like a human yet I'm feeling like a beast / and I don't have time to get blessed from a priest / squinting my eye as I look from a far / a man pulled up rolled the window from his car / and he asked me / if I wanna ride / and I took a look at him and then I

got inside / and then I take off ninety-five as I drive /
something feeling strange from my body inside / my
stomach is twisting' turnin' / my heart feel like it's
burnin' / and I see a place then I turn in / then I lurk in /
as I'm hurtin' / slither like a serpent / and then I get...
in... /

Chorus

Verse 3

The door was open so I walk right in / heart beats fast I
feel like I'ma sin / I got to the bar so I asked for juice
and gin / saw a pretty chick eyeing me with her friend /
she approached me 'cause she wanted to be friends /
thinking pretty quick tryna avoid tryna pretend / she cut
me off saying one to ten that I am ten / she cut me off
again as I just tried to begin / and now I'm mezmorized
as I smell her skin / feel bad 'cause she don't know
what she's in / then it hit me at the moment right then /
and I turned away and walked away but then / down on
the ground hair is coming out my skin / teeth is coming
out now it's easy to bite in / heart beat fast yet I'm
suffa-ca-tin' / the people come around inner circle
panicin' / little did they know I turn to be a Lycan /
bashing anything left and right I'm fightin' / grippin' on
they neck as I rip out they limbs / live in instinct do it dip
out again / and do it again /
