Four black clouds
Over Saaz
Free barbarians
Masters of darkness

Only silver fullmoon
Illuminate their path
Under the hooves
Of their black horses

No God can't change their mind
No shepherd can't destine their way
No force majeure can't govern their lives
They are free... !

Midnight ride
Over the light of fullmoon
Barbarians enjoy their lives
They are free... !

Join them on lucid journey
Join them in Blasphemous
Dark Occult Immortal
Black Death way... !
