They've got something green just for our condition  
Safely in hands  
Any unconscious faith you had in your convictions  
On an airplane we dance

And even off the aircraft  
Everything seems to make us laugh  
Attention won't come easy  
It never did  
It never did  
It comes easier

We've got something great so hopefully you trust us  
And don't do too much  
Any unconscious faith you had in your convictions  
On an airplane we dance

And even off the aircraft  
Everything seems to make us laugh  
Attention won't come easy  
It never did  
It never did

So what you ended up having to say  
You're always gonna owe me the same  
We're all, we're all over the influence  
We're collecting interest

And even off the aircraft  
Everything seems to make us laugh  
Attention goes away  
But we always end up  
On the plane  
We're off the plane  
On the plane  
We're off
