Playback movie ends
Children need your ears
To listen to our song
Don't talk back
Don't talk back
Just keep your lips closed
Sleep on the ground tonight
Sleep on the ground tonight
If you were meant to save me
If you were me to save me
I didn't realize
This is just for you and I alone
This is just for you and I alone
This is just for you and I alone
This is just for you and I alone
Sleep on the ground tonight
Sleep on the ground tonight
Sleep on the ground tonight
This is just for you and I
