"Sleep Underground"

You play that role for years
And there's nothing else
But you don't need your ears
to listen to yourself
Don't talk back,
Keep your lips closed tight
Sleep underground tonight
Sleep underground tonight

If you were meant to save me
(Sleep underground tonight)
If you were meant to save me then I didn't realize til
now

This is just for you and I alone
This is just for you and I alone
This is just for you and I alone
This is just for you and I alone
Sleep underground tonight
Sleep underground tonight
This is just for you and I
