You play that role for years
There's nothing else
But you don't need your ears
To listen to yourself
Don't talk back
Keep your lips closed tight

Sleep underground tonight
Sleep underground tonight
Sleep underground tonight
If you were meant to save me
If you were meant to save me

Then I didn't realize 'till now
'Cause this is just for you and I alone
This is just for you and I alone
This is just for you and I alone
This is just for you and I alone

Sleep underground tonight
Sleep underground tonight
This is just for you and I.
