alter and teach the ages
nothing you love lasts too long
a marvelous calm
abandoned in the stages of
birth mother vs. the mid wife
who'll tell the children about her life

that's why you never mentioned my name to them
denying us all of the moment

that's why you never mentioned my name to them
denying us all of the moment

what brought you back to this place
I knew you'd never learn
I knew you'd never

anything expected of you now
I knew you'd never learn
I knew you'd never

I'd place my bet down now
you'll be the first one to sell me out
that's why you never mentioned my name to them
denying us all of the moment

that's why you never mentioned my name to them
denying us all of the moment

what brought you back to this place
I knew you'd never learn
I knew you'd never

what brought you back to this place
I knew you'd never learn
it's obvious

what brought you back to this place
what brought you back to this place
