(A. Vandenberg)

These days I wanna hide away, stick my head in the sand

Well nothing makes me wanna stay, is this the promised land?

It's dog eat dog all over the world, a life ain't worth a damn

Fingers pointing, accusations flyin', nobody makes a stand

Chorus:

Gotta get me a shot, gotta get me a shot, a shot of something

Gotta get me a shot, gotta get me a shot, a shot of something

Gimme a shot of faith, a shot of confidence, a shot of something

A shot of something

All I want is some sympathy, peace of mind for you and me

In all this chaos still I need to know, where is the road that leads me home?

(chorus)

Gimme a shot of faith, a shot of confidence

(A shot of something) I gotta find some peace of mind

(A shot of something) a shot of light into my life

(A shot of something) I'll fight the fight to get things right

(A shot of something) All right

(Solo)

Blind leads blind right to the grave, leaders lie with a smiling face

Dawn or daybreak or forever dark, who knows just where we are?

(chorus repeats 2x)

A shot of faith, a shot of confidence, I gotta find some peace of mind
