(A. Vandenberg)

All I ever need seems so easy to get now
Doesn't seem so abstract now it's right in front of me
Easy to please, a ball of wax in your hands now
Don't tell me just when it ends now, maybe I don't
wanna know

Chorus:

Keep it comin', I just wanna know how much I can take
Keep it comin', gotta let it go, dontcha hesitate
I ain't satisfied with a piece of the action
I won't need no directions, I think I know where to go,
just where to go

(chorus)

Keep it comin', I just wanna know how much I can take
In my mind I've crossed the line, I know what I'm
fighting for
It's clear to me that all I need, is a chance to breathe
(Solo)

Giving all you've got, it ain't so hard to do now
You take it just as it comes now, so give it your best
shot

Right off the top

(chorus)

Keep it comin', I just wanna know how much I, how
much I can take
Keep it comin', gotta let it go, let it go, let it go now
Keep it comin', all I ever need now, need now
Keep it comin', it seems so easy, so easy to me
Keep it comin', girl you gotta let it go yeah, gotta let it
go now baby
Keep it comin', come on, come on, come on, come on
