Brown Girl (the words)

Hit it Carl

She's brown and strutting down the sidewalk
Leaves of trail of blue and black with those high heels
across my back
Steel blades strapped to the sides of her wrists
Hey, I found out nothing when we're talking shit
Just two brown kids, double dipped cigarettes

The easier I fall, the harder I'm stoned, I'll take her
anyway
This chica walks down the block she's got an evil streak
She's a brown girl and I'm living with a brown girl
She's a brown girl and hey living with a brown girl

Nineteen been missing her novio from toker's town
You See she drank all the beer we had at home she
listens to oldies in the other room
Why not? you're alone in his Chevy weeping.

Hey, I'll replace your drunk old man
He sits in the pinta while I hold your hand

The easier I fall, the harder I'm stoned, I'll take her
anyway
Drunk and in love out of the club such a hold inside
She's a brown girl, hey I'm living with a brown girl
She's a brown girl and I'm living with a down girl

The easier I fall, the harder I'm stoned, I'll take her
anyway
Drunk and in love out of the club such a hold inside
She's a brown girl Hey I'm living with a brown girl
She's a brown girl hey I'm living with a down girl

Especially on the first and fifteenth
