Praying that you'll fall down soon (fall soon)
And your guiltless sex will break in two (break in two)
We brought you sensitivity and you never knew

No we ain't going down
No we ain't going down

I get down to nothing and jumbled up again (up again)
Praying your injection is just too good to end (good to
end)
When the summer's gone you know it's dead

No we ain't going down
No we ain't going down

No we ain't going down
No we ain't going down
No we ain't going down
No we ain't going down
