Im ... Im feeling too awake  
Im ... Im tired of what I see  
Everybodys dreaming running for the scream  
The medias stinking drunk nothing is at stake

All the faces I love their skin as soft as leprosy  
Words choked on my lies repeating love till they cry  
All the faces I love their skin as soft as leprosy  
Im bored out of my mind and Im too stoned lazy to see

The sun ... the sun is leaving me  
I cant ... see it anymore  
I tried everything to get along with you  
The nights too lonesome when the heat doesnt care

All the faces I love their skin as soft as leprosy  
Words choked on my lies repeating love till they cry  
All the faces I love their skin as soft as leprosy  
Im bored out of my mind and Im too stoned lazy to see
