

## Manic Street Preachers

### "Firefight"

Visit "[Firefight](#)" on MotoLyrics.com

Tonight we watch the burning cars shining bright  
Was it boredom, is not the sky enough

Everything I loved is now leaving me  
No photographs can show how it used to be

Wake up the past and tell it to stay away  
Bad times are here to stay  
Wake up the past and tell it to stay away  
Bad times are here to stay  
Its just a Firefight  
Its just a Firefight

What can you do when everything turns to dust  
A sign from god replaced what you forgot  
What can you do when everything turns to dust  
A sign from god replaced what you forgot

Wake up the past and tell it to stay away  
Bad times are here to stay  
Wake up the past and tell it to stay away  
Bad times are here to stay  
Its just a Firefight  
Its just a Firefight
