Show me a wonder you can't be sure of
I exist in a place a self-made vacuum
But still stranded here with all the scum
So clean - so lost - so beautiful

But I found that soul
Yeah I found that home
But I found that soul
Yeah I found that now

Not a subject not a subject am I
Sick and pale but strangely alive
Broken blood vessels line my cheeks
Reflections look bad and somehow unreal

But I found that soul
Yeah I found that home
But I found that soul
Yeah I found that now

Show me a wonder
Show me a wonder
Show me a wonder
