"Must Be The Music"

Visit "[Must Be The Music](#)" on MotoLyrics.com

Sometimes i listen to what people try to say
then when i tune in
i think, no that's not the way
sometimes i listen to what people have to say
then when i tune in
i think, no that's not the way

it must be the music
it sounds so confusing
it must be the music
thats opening my eyes
it must be the music
sounds so confusing
it must be the music
when people realise

sometimes i listen to what people try to say
then when i tune in
i think, no that's not the way
sometimes i listen to what people have to say
then when i tune in
i seem so far away

it must be the music
sounds so confusing
it must be the music
that's opening my eyes
it must be the music
sounds so confusing
must be the music
when people realise
