A feeling sleeping deep inside
You hide it so I'll never find
Today I think I'll waste my time
You never notice, you are blind
The dream I have can never be
To photograph what the eye can't see
I fight to live another day
I live to find out, come what may

Faith in the lord is something I can never have
Faith in my sister is gonna set me free
Faith in the lord is something I will never have
Cause the lord I know don't got no faith in me

You're my lover, you're my lover
You're my lover, you're my lover

She gives me light when the sun goes down
She gives me strength when I don't drown
She gives me hope and destiny
She gives me air that I can breathe

Faith in the lord is something I can never have
Faith in my sister is gonna set me free
Faith in the lord is something I will never have
Cause the lord I know don't got no faith in me

You're my lover, I'm your brother
You're my lover, I'm your brother

Faith in the lord is something I can never have
Faith in my sister is gonna set me free
Faith in the lord is something I will never have
Cause the lord I know don't got not faith in me

You're my lover, I'm your brother
You're my lover, I'm your brother
You're my lover, I'm your brother
You're my lover, I'm your brother
