I spent all my summer
Waiting for you
Nothing else to
Nothing else to do
Nothing to do
Nothing to do
Nothing to do
Nothing to do

I spent all my life
Waiting for a girl
To knock on the door
To knock on the door
knock on the door
knock on the door
knock on the door
knock on the door

I spent everyday
Hanging out of the way
To talk with you again
To talk with you again
With you again
With you again
With you again

I've looked back upon
And looked forward to
Being with you
Being with you
Being with you

I spent all my summer
Just waiting
I spent all my summer
Just waiting
Waiting just waiting
Waiting just waiting
And I spent all my summer
Just waiting for you
