You're never gonna get along hanging around
And thinking out loud
You're never gonna get it on
And be someone stuck in that crowd
So you call out for feelings you hope that don't never
exist
But don't be ashamed of your bones and your blisters
So come on come on my brothers and sisters

You can only be what you are
You've got the heart of a star
But the light never hits you
And I said come on - come on
My brothers and sisters

If you could see what I could see
Maybe we could all get along
And maybe I can justify the bad things in life that I've
done
So I call out for feelings I know that don't never exist
I won't be ashamed of my bones and my blisters
So come on - come on my brothers and sisters

You can only be what you are
You've got the heart of a star
But the light never hits you
And I said come on - come on
My brothers and sisters

And the slower that you go the greener the grass
grows
And what we all need is love in our lives
So go about you business
Cos' life ain't your mistress
Come on come on my brothers and sisters

You can only be what you are
You've got the heart of a star
But the light never hits you
So be all you can and just hold up your hands
Someday you'll understand
Why life never kissed you

And I said come on - come on my brothers and sisters...
