All alone watching  
Evil in the sky  
Scan the desert  
For a stranger coming into sight  
But I have to be one step ahead  
Let the eyes of time  
Lead me to the end

Taking every chance  
To trace these steps alone  
Every circumstance  
Leads to roads unknown

Now it's all around us  
And the world has come undone  
There's no one left to see  
Nothing to believe  
There's a ghost inside my mind  
Keeps the memories alive  
There's a demon on the run  
Heading for the sun

Here alone and I'm half asleep  
Thoughts are sick and twisted  
Never what they seem  
Always someone on the other side  
Got to stop this spiral  
Running for my life

All the evidence  
Was hidden very well  
That will never change  
The stories one could tell

Now it's all around us  
And the world has come undone  
There's no one left to see  
Nothing to believe  
There's a ghost inside my mind  
Keeps the memories alive  
There's a demon on the run  
Heading for the sun
