If you want to face me I'll face you,

If you want to face me I'll face you.

If you want to face me I'll bring you down!

Down! Although I will fail,

My pride wont let me stop till I've defeated myself.

Pain from my mind makes me numb on the inside.

I crawl to escape but my legs won't last the flight.

Why is it so hard to find my route to fly?

All my pain I bring on my own.

Got to pull me out from this tomb.

This bad medicine heals nothing but my reason.

Pain from my mind makes me numb on the inside.

I crawl to escape but my legs won't last the flight.

Why is it so hard to find my route to fly?

Pain from my mind makes me numb on the inside.

I crawl to escape but my legs won't last the flight.

Why is it so hard to find my route to fly?
