"Left Behind"

All these memories wasted

Sorry I must have misplaced them
Left it all behind

Driving in the wrong direction
Can't find my minds correction
Good times are gone

I don't find a reason
Why you cannot hear me
I can't find a reason
Why you can't believe me

Spinning and Spinning out of control
My feelings are something
You just can't console

You backed me into a corner
There's nowhere to hide
Its time for me to go and leave your side
I'm leaving you behind

I don't find a reason
Why you cannot hear me
I can't find a reason
Why you can't believe me

I don't find a reason
Why you cannot hear me
I can't find a reason
Why you can't believe me
