Now here I go
A revelation of a man with no device
An empty old soul
Forgotten pacifist to heal the wounds of life
Now I wanna know
Why I'm sliding down a razor on my back
And I wanna know
How I can find a way to meet up with the man

Now here I go
A revelation of a man with no device
An empty old soul
My only sin was that I never learned to fight

[Chorus:]
Ya know what I will say?
Ya know what I will say?
Ya know what I will say?
I'm gonna meet my maker, shake his hand,
And tell him he fucked up with this master plan
Meet my maker, shake his hand,
Tell him he fucked up with this master plan
Meet my maker, shake his hand,
Tell him he fucked up with this master plan
Meet my maker, shake his hand,
Tell him he fucked up...

I am here, I am life
And I have an evil side
I am here, I am blind
And I have an evil side
I am here, I am life
And I have an evil side
I am here, I am blind
And I have an evil side

[Chorus]
