At first I wasn't sure, you were beautiful as far as I know  
Then I talked to you, and the spell was done  
I am stuck with your hot body, give me something  
more.

#### CHORUS

I'm not brave, I'm scared  
I don't wanna be alone again  
I only need to make sure  
That your heart is just for me

You like me, I read the signs  
But you are committed, I just find out.  
Fate, are you happy now?  
I'm alone, I just need someone  
If you are enjoying my suffering  
Turn the rain into knives.

#### CHORUS

I'm not brave, I'm scared  
I don't wanna be alone again  
I only need to make sure  
That your heart is just for me

I'm in love again, nice feelingâ€¦ full of pain  
My eyes can see your soul, my body can't feel cold  
If you are around me everything is music.  
If you are around me everything is music.
