Waves of power in my brain
Flying far, I'm high, I'm insane
Ecstasy and almost perfection
But you take me away from there.

CHORUS

Inhale more smoke and pain
Drown yourself in your own shit
'Cause you drove me insane
I am going to change the game.

I just want to find a way
To take you out of my space
But you love to fuck with me
Lacing me with your tricks

CHORUS

Inhale more smoke and pain
Drown yourself in your own shit
'Cause you drove me insane
I am going to change the game.

Great feelings, poor flavors
Rolling stars and vivid lights
I am flying high in my space
And you won't take me away from there.

CHORUS

Inhale more smoke and pain
Drown yourself in your own shit
'Cause you drove me insane
I am going to change the game.

Inhale more smoke and pain
Drown yourself in your own shit
'Cause you drove me insane
I am going to change the game.
