All of this past is frozen, life is moving faster  
The moments there made me stronger  
I miss you, I can't lie  
So many people I left behind  
But for the first time in my life I'm fine.

#### CHORUS

Every person there is stuck in my skin, every person  
there is a part of me  
They start to forget me, they start to forget me  
Their faces are pictures in my mind, 'cause time is  
killing their voices  
Is killing their voices  
Is killing their voices

The new people in my life can't replace all of my past  
Maybe memories will turn into lies  
I feel lonely sometimes.  
I miss you, I can't lie

#### CHORUS

Every person there is stuck in my skin, every person  
there is a part of me  
They start to forget me, they start to forget me  
Their faces are pictures in my mind, 'cause time is  
killing their voices  
Is killing their voices  
Is killing their voices

#### CHORUS

Every person there is stuck in my skin, every person  
there is a part of me  
They start to forget me, they start to forget me  
Their faces are pictures in my mind, 'cause time is  
killing their voices  
Is killing their voices  
Is killing their voices

#### CHORUS

Every person there is stuck in my skin, every person  
there is a part of me

They start to forget me, they start to forget me  
Their faces are pictures in my mind, 'cause time is  
killing their voices  
Is killing their voices  
Is killing their voices
