Look around
Feel my sound
Try to catch my bright blue light

Scream my name
pass the flame
Let me be inside you girl

I wanna light you up and shake your body
I wanna light you up and be your fire
I wanna drain all of your power
You turn me on, beautiful liar.

Now that I got your attention
It's a matter of perception
Pick the color of your light
and you'll get a new surprise.

I wanna light you up and shake your body
I wanna light you up and be your fire
I wanna drain all of your power
You turn me on, beautiful liar.

Gimme more lights, scream my name and gimme
more lights.

Gimme more lights, gimme more lights, scream my
name and gimme more...

I wanna light you up and shake your body
I wanna light you up and be your fire
I wanna drain all of your power
You turn me on, beautiful liar.
