Some said I was afraid for you
I've got everything you want
These hits to me, make me never want to fall
Mommy said we werent cheap
You see another baby another hole to bleed through
me until there's nothing left at all
Ungrateful under the table at that I raised myself from
a little girl
Does she wonder where I'm sleeping
Where were you lately
Don't you leave me...
Don't you leave me alone, don't you need me
Bitch said I was a priest for you
Holy water in a holy spoon
Distress your disease
It's amazing I still breathe...
You lift me up from under
You said don't wake me up I know that wait, do you
hate me, god I'm trying,
Where were you lately?
(Chorus.).
I'll come with you and I'll go with you
I'm faithfull do what I'm able and, would you wake me
up I'm dying heree
We went crazy and your god aint sorry
Where were they lately
(Chorus)
