

Mannequin, Die "Guns Not Bombs"

Odious, I know
It follows wherever I go
Shadows kept in horror
Captured all over the floor

When it's over I know
Never over, I'm told
Going to take us all
Catastrophic assault
Hated heart in a hole
Turning peace into gold
Fatal fires grow

Infernal legions
Twisted regions
Tragic cruelty
Sadist ruling

Our guns and raids
Have gone on too late
Our bombs have saved
A fatal brigade
Our arms and graves
Have gone on too late
Believe our prayer
"Don't need you there"

Barbarous, I know
It follows wherever I go
Tethered at the wrists
Bury my dead wish

When it's over I know
Never over, I'm told
Going to take us all
Catastrophic assault
Hated heart in a hole
Turning peace into gold
Fatal fires grow

Infernal legions

Twisted regions
Tragic cruelty
Sadist ruling

Our guns and raids
Have gone on too late
Our bombs have saved
A fatal brigade
Our arms and graves
Have gone on too late
Believe our prayer
"Don't need you there"

Have you seen my hoax
Heartless holy ghost
Faded, fainted, close
War without a home

When it's over I know
Never over, I'm told
Going to take us all
Catastrophic assault
Hated heart in a hole
Turning peace into gold
Fatal fires grow

Infernal legions
Twisted regions
Tragic cruelty
Sadist ruling

Our guns and raids
Have gone on too late
Our bombs have saved
A fatal brigade
Our arms and graves
Have gone on too late
Believe our prayer
"Don't need you there"

Don't need you there
