Heart ache when she was with him
But love fails you because of it
Eyes roll when she's begging and beat
I hate you because of me

Lonely of a woman
That holds me to the villain
Lonely of a woman
Lonely of a woman

Dead dance for my murdering queen
Your last breath 'cause you're killing me
A gun shot to the back of beat
Another fever, I don't need her to bleed

It's a long lie living the dream
Shoot the sickness
Shake the disease
Lives alone but she dies with me
She's alone but she dies with me

Lonely of a woman
That holds me to the villain
Lonely of a woman
That knows what it is when it's me
Only of a woman
Hold me like you shouldn't
Lonely of a woman
That knows what it is when it's me

I hate you because of me
But love slaves you because of it
I still need my recovery
I pray for a believer in me

It's a long lie living the dream
Shoot the sickness
Shake the disease
Lives alone but she dies with me
She's alone but she dies with me

Lonely of a woman
That holds me to the villain
Lonely of a woman
That knows what it is when it's me
Only of a woman
Hold me like you shouldn't
Lonely of a woman
That knows what it is when it's me

Hey, hey, hey

Hold my own, yeah
Knows what it is when it's me
Heart and whole, yeah

Lonley of a woman
That holds me to the villain
Holy of a woman
That knows what it is when it's me
Knows what it is when it's me and
Knows what it is when it's beating me
