everybody's out for the money running around talk
about yourself all the time getting you down think
about your needs out of mind gotta get ahead turn my
back leave me behind point blank, take a leak pressure
playing a dew gettin' to heavy for me everywhere we
meet get who do you know, where do you go? i can't
take it looking for you, nothing to see i can't take it
anymore have you seen her, have you seen her, have
you seen her, i don't know better get it over with better
look out i gotta go escalator, elevator, put your on the
line gotta get ahead, turn my back, just a matter of
time straight up, take a leak the gets out, he's out on
the street pressure, too heavy for me everyone i meet
seems to agree hangin' around, botherin' me
transparent users, lookin' for you, nothing to see
manipulating losers, what do you have? what's in it for
me? i can't take it, i can't take it anymore
