mannie:once upon a time in this place called club//

met this cutie wit big booty so I gave that girl a dub//

later on that night we had plans and shit//

if you take from the club then I'm gonna let you hit//

if I take you from the club will you always be in love and
you promise not to another man//[I do!]

see she looked me in my face//

put her hands up on my waist//

and said yes baby yes I understand//

now my life is like,happy//

bout to be a pappy//

and it's all because of my girl//

but just,then,a nigga walked in and what he said
fucked-up my whole world//

he said yo bitch,and my bitch been kissin each other//

I,had,relations wit yo bitch and didn't use a rubba//

my blood rushed down and my heart touched the
ground it felt like somebody stabbed me wit a knife//

somebody get my gun,can't change a hoe to a house
wife
