In this place
I'm trapped inside
Too much guilt to hold these lies
A test of strength will soon be broke
You must obey
To this day I thank my friends
For showing me light inside this head
Yours words are great but my feelings are wrong
You must obey
You fall away from me - (x4)
My life has changed To challenge you - with hate
And surprised - with your
Last breath await - so stand back
My life has changed to challenge - (x2)
And you fall away You fall away from me
