See, I just wanna hold you
And never let you go boo,
Girl we could do, whatever you wanna go do,
Shorty you could be in control (In control),
Whenever it's raining,
We'll just stay in,
Kiss and playin' and talking till the AM comes,
I got too much to show,

Why won't you be my blue skies,
So I can be your sunshine,
You'll be my horizon,
I'll come to you everynight,
I want you to be my moonlight,
I will be your night-time,
My life would be so dark,
If you didn't shine so bright (Bright),
Forever your's,
Girl I'll be forever your's,
For you I'll trade it all,
This is too good to ignore,
Forever your's,
I wanna be forever your's,
I hope you don't make any plans,
We got a future to explore,

Lets go to a place,
Far away,
Where we could stay together forever and ever,
A place far away,
Where we could stay,
Together Forever and ever,
I'm your's, I'm your's, I'm your's, I'm your's
Forever and ever I'm your's,
I'm your's, I'm your's, I'm your's, I'm your's
Forever and ever I'm your's,

You're going to a new place,
Can I be your room-mate,
Promise, I ain't two-faced,
I don't want to fill up used space, Oh no
Oh no, Oh

Baby we could start a new phase,
We could start it today,
Us against the world,
Babygirl whatever you say,
I say lets go,

Why won't you be my blue skies,
So I can be your sunshine,
You'll be my horizon,
I'll come to you everynight,
I want you to be my moonlight,
I will be your night-time,
My life would be so dark,
If you didn't shine so bright (Bright),
Forever your's,
Girl I'll be forever your's,
For you I'll trade it all,
This is too good to ignore,
Forever your's,
I wanna be forever your's,
I hope you don't make any plans,
We got a future to explore,

Lets go to a place,
Far away,
Where we could stay together forever and ever,
A place far away,
Where we could stay,
Together Forever and ever,
I'm your's,

Forever,
I'm your's, I'm your's, I'm your's, I'm your's,
Forever and ever,

I'm your's,
And ever, [x3]

Forever and ever I'm your's...
