You will find love
You will find love
You will find love
You will find love

Trying hard to make it through the day
(Through the day, through the day)
I wish we could be okay, okay yeah
I hope this feeling fades away, I can't hide it
(Hide it, hide it)

I told you we would find a way
(Find a way, find a way)
I lied and said it's okay, okay yeah
Pretending every night and day, we will find it
Find it, find it)

Whatever will be
You will find love but not with me
I told you wherever you'll be
You will find love just wait and see

You will find love
You will find love
You will find love
You will find love

You will find love
You will find love
You will find love
You will find love

Can't believe what I put you through
(Put you through, put you through)
You used to be my perfect work of art
But I know now what I never knew
Can't deny it (deny it, deny it)

Whatever will be
You will find love but not with me
I told you wherever you'll be
You will find love just wait and see

You will find love
You will find love
You will find love
You will find love

You will find love
You will find love
You will find love
You will find love

(You will find love)
Now it's over, it's said and done
(You will find love)
But you will find love
(You will find love)
Now it's over, it's said and done
(You will find love)
But you will find love

Whatever will be
You will find love but not with me
I told you wherever you'll be
You will find love just wait and see

You will find love
You will find love
You will find love
You will find love

You will find love
You will find love
You will find love
You will find love

(You will find love)
(You will find love)
(You will find love)
