Look deep into your eyes behold the burning flame
Sever unwanted ties within yourself detained
Emotional control revealing inner strength
Intensify

Vivid picture colorblind
Unexplainable decline
Sifting through alternatives
You antagonize
Organized insanity
More self-inflicted agony
Indecisive mind
Lobotomize

Faulty fires burning bright
Feeding mental parasite
Mediate between true reason
And invalid lie
Disregard your destiny
Embracing false humility
Infantile juvenile
Foolish genocide

Death and life intertwine

"Behave yourselves!"

"Honest to God."

"Help combat HIV the virus that can lead to aids."

"Don't bend when you feel like it."

"It's a kill'n I saw it!"

"I heard that."

"... excessive desire for pain."

"I don't want success."

"The thing that to me is the biggest of these

politicians is that they will so lightly a position, and they'll do it to win an election."
