

## Circle Of Dust "Onenemy"

Open-mouthed stare fracturing divide  
Empty heart bare emotions coincide  
Stolen lungs breathe momentary breath  
Empty eyes see secondary death

Four cycles moving on  
Three dark days then death is gone  
Two wishes to fulfill  
Only onenemy to kill  
Onenemy

Open-mouthed stares void of speech and dry  
Empty heart bare where many failures lie  
Stolen lungs breathe an air of darkest dread  
Empty eyes see a life already dead  
Fed by the crippled hand of hate

Four cycles  
Three dark days  
Two wishes  
Onenemy
