Wait around, I'll be walking quite a while  
Don't be late, hard to take, vicar twists and gets away  
His lipstick's running, his dress is stunning  
He's got high heels on, and his flock don't care now  
Mavis, what he will wear  
In the path of righteous man  
There is rubble where I stand  
I'll be the one  
You can kiss his vase until the end of the month  
Vicar stay 'cos your lipstick smeared the way from your  
face  
Vicar twist, grey pajamas in your case  
His tights are nylon, his nails by Revlon  
He's got high heels on, and his flock don't care now  
Mavis, what he will wear  
In the path of righteous man  
There is rubble where I stand  
I'll be the one  
You can kiss his vase until the end of the month  
And if you should see me passing by  
Do not disturb me as I fly  
Though I am walking here  
This is where I'll be  
In the path of righteous man  
There is rubble where I stand  
I'll be the one  
You can kiss his vase until the end of the month  
In the path of righteous man  
There is rubble where I stand  
I'll be the one  
You can kiss his vase until the end of the month  
Until the end of the month  
Until the end of the month
