Photographic duchess, Cousin of the queen I've been
infatuated duchess
Since I knew you had the queen It's the way you move
in castle grounds
You're the cousin of the queen for Christ's sake
Duchess I will like you
And that says a lot for me I'd like you even better
duchess If she died
And you were queen Regal by appointment Relation to
the queen I thought
You were attractive duchess But the clinched it all for
me It's the way
You move in castle grounds You're the cousin of the
queen for Christ's
Sake Duchess I will like you And that says a lot for me I'd
like you even
Better duchess If she died and you were queen
Sometimes you're here at my
Side And sometimes you travel in time I don't believe
that wherever you
Travel You'd get an assistant like mine Sometimes
you're here at my side
And sometimes you travel in time I don't believe that
wherever you travel
You'd get an assistant like mine Duchess I will like
you And that says a
Lot for me I'd like you even better duchess If she died
and you were queen
Duchess I will like you And that says a lot for me I'd like
you even
Better duchess If she died and you were queen
