Fuck you and your goddamn scene
it never meant that much to me
it never was that interesting at all
you are becoming obsolete
no one listens even when you scream
it always was so far off-key and insecure
and the worst part is you don't know it
you're having the time of your life
you used to be young
you used to be right
and so perfect
well so was I
it's 8:30, time well spent
I ain't waiting around till then
I ain't waiting around for them, oh no
a few words if only you knew
I'm taking pleasure in learning the truth
and spending my nights watching you so carelessly
I don't wanna be you
