Anti everything
(Live in Richard Roger's doorways)
I care nothing
(Lives at the bottom of your strung out conscience)
He looks mescaline
(Take the day off, it's cheap for cider)

I pay for sex in a sleeping bags
I smell you on me, phased out of your life
You're no different from me

I tell you anti everything
(Love him and hate him both at the same time)
I care nothing
(Lives at the bottom of your strung out conscience)
Mescaline
(Take the day off, it's cheap for cider)

Find a place where you can rest your sleepy head
And won't get pissed with me
Find a place where you can rest your sleepy head
And won't get pissed with me

Anti everything
(Live in Richard Roger's doorways)
I care nothing
(Lives at the bottom of your strung out conscience)
I'm mescaline
(Take the day off, it's cheap for cider)

Find a place where you can rest your sleepy head
And won't get pissed with me
Find a place where you can rest your sleepy head
And won't get pissed with me
