Winter, Scruffy wakes at dawn
Cold out, snow begins to fall
Birthday, tears in her eyes for me
For to see, yeah

Me and Scruffy, we float above the crowd
Scruffy's birthday, balloons are all around
No one knows us but we don't really care
Today, it all goes our way

Floating high above the street
Laughing at people down beneath
Wierdos, but we don't really care
Today, things go our way, yeah

Me and Scruffy, we float above the crowd
Scruffy's birthday, balloons are all around
No one knows us but we don't really care
Today, things go our way

What will we do when she's gone?
What will we do when she's gone?
What will we do when she's gone?
Now Scruffy's gone
