Call the repair man  
And he'll sort you out  
With his bag of tricks  
(Bag of tricks)

He said, "I am repair man  
Won't you take a bow  
Come on give me space  
Tell me which part aches?"

He said, my stress was pain  
Remembered from disinfected mess  
Swirling round my head

I asked him frankly what it means  
This life, 'cause it's such a drag  
And these words  
He said, "You should call the repair man  
That's me, here"

Call the repair man, set me free  
Help him to help me off my knees  
Whenever it gets that life's too much  
Call the repair man, set me

He took me up in his removal van  
And the lights went out  
(Lights went out)

He said, "You'll feel much better  
When I take you back  
'Cause I work my tricks  
And my magic sticks  
"You should call the repair man  
That's me, here"

Call the repair man, set me free  
Help him to help me off my knees  
Whenever it gets that life's too much  
Call the repair man, set me free  
Free, free, free

I said, "I thank you and I'll pay you back"  
And my life was his and he disappeared  
"Just call me anytime day or night  
I'm your safety bag if your life turns bad"  
"You should call the repair man  
That's me, here"

Call the repair man, set me free  
Help him to help me off my knees  
Whenever it gets that life's too much  
Call the repair man, set me free  
Free, free, free, free, free
