["I instantly knew by the beauty of the young man that I'd experience a special case"]

A murder without death, just one minute of complete disconnection

Loss of aeons of time, loss of mass amount of information

Left outside the web, with 5 days unaccounted for

A millenium of non-communication

Searching across the galaxy wide for the data lost

Unknown enemies ready to strike, to kill at any cost

Penetrating core periphery, finding the old earth re-creation

Saved in a temple, as I received the implant information

Secrets hidden in lost memory - Together we'll find it, and we'll write history

Beautiful stranger, your life's a mystery - Powered by human genetics and poetry

THE SECRET OF THE LEACHING NETWORK AND U.I.:

Divided in 3, each fighting their own fight

- to gain the same purpose, to gain the same might

Solids argue that between core and humanity

- A certain level of symbiosis is necessary

The non-persistent advocate immediate extinction

- Humans are a threat to complete prediction

Extremes promote the project with obsession

- Reconstruction and retrieval for U.I. culmination

HYPERION! - The penultimate opposition

Non-subject from laws of physics and computerized prediction

Moving back in time with messages of war

The majestic valley graves so disturbing to the core

The outcome is two futures of war and Beast invasion

One's a retroactive strike from core domination

The second is a fist through time sent for core  
destruction

A final blow from enemies who escaped the non-  
persistents' extinction

I carry your child and I carry the memory of all you ever  
were and all you'd ever be

Ans as they take your body away, the frantic  
worshippers are chanting to me

Bless our Saviour - bless the tool to our forgiveness
