Down (down)
Going down

have you ever wondered what's next?
would you follow the lines of the text?

its the abyss, deep, proceed
i will never find your seed
the only cure for all my needs
improve my wisdom, strenght & speed

enter the abyss, calmed & deep
calm down, easy, get a grip
hypnotize and go to sleep
mystic mind just take a trip

why is it so damn low?
(so damn low)
is the process being to slow?
(being to slow)
will it take so long to grow?
(so long to grow)
if you don't care just go
if you don't care just go
if you don't care just go
just go
just go

have you ever wondered what's next?
are you ready to complete the test?
