

Cire "Highly Specific"

Visit "[Highly Specific](#)" on MotoLyrics.com

I'll save a hole for you to crawl into when you wake up
to see,
this great deceit you bought into.
Your face will melt, and soon you'll be consumed.

(chorus)

We've got highly specific information, feed it to your
congregation.
Shine it up and you know they will buy it.
They can fund all the death while we profit.
It's highly specific information...
Solved the crime before it even happened...
Had the war plans all laid out and waiting for you to
take the bait.

A smoke screen that could be seen from space...
Mouth's agape, tears on our faces, we all fell down to
our knees,
"Protect us from our enemies."

One day if we've a voice to speak,
we'll say we just could not have seen,
so grave a threat could be inside the minds of our self-
appointed kings.

(chorus)

A smoke screen that could be seen from space...
Mouth's agape, tears on our faces, we all fell down to
our knees,
"Protect us from our enemies."
(*f*—2)

Never underestimate what this gang can orchestrate.
Never underestimate what they'll do to dominate.
(*f*—3)
