I don't have a way with words
But I know you deserve much more
Half isn't quite enough
To relieve the yearning in your heart
Just as the story goes,
You fell in love, but then love took its toll
You think how could it be so cruel
Taking a little part of you

Chorus

Oho oho ohhhh oho oho ohhhh
You're circling numbers hoping luck will change
Oho oho ohhhh oho oho ohhhh
But love ain't a game you can't play it the same
Oho oho ohhhh oho oho ohhhh
But love ain't the lotto be cautious my friend

If I ever say too much

Please believe
I say it all in love
And time will surely tell us how
Things will end up coming about
Just as the story goes
You made your choice, to go at it alone
Still think how could it be so cruel
Taking a little part of you

Chorus

Bridge
Love ain't a city night come to an end
Love ain't the movies cause that's just pretend
Love ain't the feeling that you get when it begins
Love is the patient kind there till the end
Love is a precious gift, cherish it my friend
Love is a sacrifice willing to be made
Love is the reason I sing this today
