I love you more than anything but I can't tell you  
anything  
So I drink to drown my sorrows away  
You say to tell you everything but I can't tell you  
anything  
So I will go and binge troubles away

I only say I love you when I'm drunk  
So turn around but hit me first so I wake up  
And see you leave, don't say goodbye, please just  
leave me

I love you more than anything but I can't give you  
anything  
Just look at me, a shell of who you're in love with  
I can't cope with anything, I can't stay close to anything  
So please dump me, you'll get the respect you're  
needing

I only say I love you when I'm drunk  
So turn around but hit me first so I wake up  
And see you leave, don't say goodbye, please just  
leave me  
I only say I love you when I'm drunk  
So turn around but hit me first so I wake up  
And see you leave, don't say goodbye, please just  
leave me  
I need you to leave me  
I need you to hate me  
I need you to be happy
