It's great to be back  
It's great to feel like living again  
It's great to be back  
It's great to have this chance again

Like a never ending dream of insomnia  
Awakened by cold shiver of reality  
Endless path of possibilities  
Like a river filled with ideas

Everyone has this feeling of togetherness  
Ancient troops still feel like part of us  
It's far away from the fool's cross  
Northern spirit will never be crushed

Everything is so familiar  
It's just like it used to be  
Lots of barriers will be crushed  
Fire is still strong inside the ancient one

This time it will be taken further  
It's all about the brotherhood  
Uncontrolled art of rules  
Sacrificing the only witch

Everyone has this feeling of togetherness  
Ancient troops still feel like part of us  
It's far away from the fool's cross  
Northern spirit will never be crushed

It's great to be back  
It's great to feel like living again  
It's great to be back  
It's great to have this chance again

Everyone has this feeling of togetherness  
Ancient troops still feel like part of us  
It's far away from the fool's cross  
Northern spirit will never be crushed
