You make me so good,
To be around,
Feeling like you should,
Wont get you down.

I've been crawling through the morning,
Soporific, never lazy,
Mind's elsewhere, but I ain't crazy

Full bliss every time,
Receive the sun,
It's coming on.
Impasses, states collide,
She is the one who keeps me calm.

You make me so good,
To be around.
Feeling like you should,
Wont get you down.

In the system,
Hell amidst 'em,
Everyone's a messed up trip, yeah,
Going back,
I'll meet you all there.

Full bliss every time,
Receive the sun,
It's coming on.
Impasses, states collide,
She is the one who keeps me calm. (x2)

Instrumental break

Full bliss every time,
Receive the sun,
