All of the streets are lonely  
All of the faces are cold  
All of the streets are lonely  
All of the faces are cold

I float away, come and we'll spin away  
Somewhere as far as it seems, boy  
I'm proud to say that I feel far away  
So shame on remembering me, boy

I disappear just as I'm sitting here  
Blame it on nothing to say, boy  
I failed to stay so I'm flying away  
To wake up tomorrow  
If you wake up tomorrow at all

All of the streets are lonely  
All of the faces are cold

Float away, you're floating any time at all  
Any kind of blue sky over any kind of fall  
Lose you on the lonely streets of anyone at all  
Who's drifting from the arms of somebody  
Somebody, somebody, somebody

I found my way from the city of gray  
Too sorry and sad in the street, boy  
I'm blown away on the wheels of a train  
The same on this trip made of steam, boy

I flew to where maybe no one will care  
Forever remembering me, boy  
I failed to stay so I'm flying away  
To wake up tomorrow  
If you wake up tomorrow at all

All of the streets are lonely  
All of the faces are cold

Float away, you're floating any time at all  
Any kind of blue sky over any kind of fall  
Lose you on the lonely streets of anyone at all

Who's drifting from the arms of somebody  
Somebody, somebody, somebody

I disappear just as I'm sitting here  
Blame it on nothing to say, boy  
Lovers today, only faded away  
To wake up tomorrow  
If you wake up tomorrow at all

Wake up tomorrow if you wake up tomorrow  
Wake up tomorrow if you wake up tomorrow  
Wake up tomorrow if you wake up tomorrow  
Wake up tomorrow if you wake up tomorrow at all
